* Reference intake of an average adult (8 400 kJ/2 000 kcal)

For calculation of reference intake as used reference intakes according to the Regulation No 1169/2011.

Reported value of sugars can be higher than reported value of carbohydrates. This difference is caused by the combined uncertainty of all analyses involved in carbohydrates value calculation. Analytically, values are correct.

The calculated nutritional averages are based upon the above selected sample.

Calculated reference intake averages and amount of nutrients per portion are not covered by our scope of accreditation.

ALS Food and Pharmaceutical accept no liability for misuse of the data provided.
